5	<b>Tactics for after the consultation period</b> It was agreed that the responses should be written up independently by the person Luke recommends who has done this sort of work before and could complete it before our meeting on January 10 <sup>th</sup> . It was also agreed that the NPG should look at the responses first. To do this a meeting was arranged at Bill's house for Tue 20 <sup>th</sup> Dec, 7.00 pm If the consultation responses are not clear cut about the preferred location of the development having a ballot was suggested. Luke confirmed (by email) that WLDC would not get involved with organising that ballot. The NPG would have to organise it. A decision on whether we should have a ballot or not was deferred until after the consultation period and when more NPG members were present	All  All
6	<b>Suggestions from Luke</b> It was agreed to forward Luke's email (after getting permission to do so) to the NPG suggesting 6 action points. The points were discussed by those present.	Rob

7	<p><b>AOB</b> It was suggested that a more direct approach (door knocking) to residents should be adopted during the rest of the consultation period. Some members said they would not do that but it was generally felt that the NPG should encourage residents to respond, particularly those residents in the west of the village who have not engaged in the discussion to date.</p>	All
